

International recognitions

Panettone Birra e Cioccolato

Panettone Gran Milanese

Every year, in London in September, an international jury of experts in the food sector meets to select gourmet products from around the world and to give some recognition, ranging from one to three gold stars to identify the best ones.

Among more than 10,000 different products, with blind tastings, **Panettone Bonifanti Gran Milanese** won the **GREAT TASTE AWARD 2010**, with the highest score - the three gold stars - awarded only to 10 confectionery specialties from around the world.

To this first success every year others have been added. Making quality requires a non-indifferent commitment, maintaining it over time is a guarantee of continuity. A further testimony of a responsibility that for Bonifanti means daily life and for consumers all over the world means quality and goodness always at the highest levels.
